### ● Reason for the amendment

Regarding to the consolidated business forecast for the full year of FY2018, the revised outlook includes operating profit of ¥98.0 billion (down ¥54.0 billion yen from the previous announcement), ordinary profit of ¥99.0 billion (down ¥58.0 billion yen from the previous announcement) and profit attributable to owners of parent of ¥41.0 billion (down ¥42.0 billion yen from the previous announcement) .

The main reason for the amendment is due to the impact from the inventory valuation because of the change in crude oil prices.

The above business forecast is based on the assumptions of estimated crude oil price at US\$ 68/bbl and exchange rate at JPY 111/US\$.

(Assumptions at the previous forecast: crude oil price US\$ 74/bbl, exchange rate JPY 110/US\$)

There is no change of the dividend payment outlook from the previous announcement. ( Annual dividend per share : 50 yen)

(Note) The above business forecast is based on information available as of the published date of this release and actual results may materially differ from the forecast subject to variable factors that may arise in the future.
